Postman

EDUCATION

Certificate,
Full Stack Development
Clever Programmer
2021-2022

Anthony Apodaca

Web Developer

I am a Frontend Web Developer based out of California. My goal is to plant myself in a company and grow in all areas of development while producing quality work as a valuable team member. I thrive and excel in environments that are challenging, learn very quickly, and pride myself in contributing to any type of projects where I can use my skills to enhance user experience and solve everyday problems.

EXPERIENCE

Frontend Developer (Contract)

Fire and Water International Ministries / 2021 – Current

- Modernizing a Church Website using ReactJS, to increase traffic and awareness to the Ministry.
- Developing a mobile friendly website, to attract a broader audience.
- Implementing user authentication using Firebase to allow the saving of user data.
- Developing a Stripe payment platform to allow the Church to easily take donations.
- Technologies Used: JavaScript, React.JS, CSS, Firebase, Stripe.
- GitHub: <https://github.com/adapodaca92/fawim-app>

Full Stack Travel Log Application (Capstone Project)

Clever Programmer / 2020 – 2021

- Developed an application that allows users to log their travel experience for future reference of all users.
- Implemented a variety of features to attract our audience to post a map log complete with location, description, rating, and images.
- Developed a minimum viable product application for ease of use for all audiences.
- Technologies Used: JavaScript, React.JS, CSS, Node.JS, Express.JS, MongoDB, Mongoose, Cloudinary.

Blockchain NFT Minting Application

Clever Programmer / 2020 – 2021

- Developed a site with React.JS for minting an NFT complete with connection to the MetaMask cryptocurrency wallet.
- Developed a Smart Contract that allows the ability to mint the NFT within the Ethereum blockchain securely.
- Stored the NFT on an IPFS network to support security and decentralization.
- Technologies Used: JavaScript, React.JS, CSS, Solidity, IPFS, MetaMask.
- GitHub: <https://github.com/adapodaca92/nft-minting-app>
